How to enable or disable game auto-save cheats in PES 2018 cheats & codes. Disable game auto save cheats. Enable game auto save cheats. DISABLE AUTO-SAVE This is how to disable the auto-save in PES 2018 game for PC. You need the game's saved game file (.sgm), this can be located in the PES 2018 folder. Right-click the game's saved game file (.sgm) and select "Properties". This will open a new window with the "Location" field and the "Browse..." button. If the file is not located in your game folder you need to open the folder of the game's "Program Files" folder and locate the folder called "game" and also open the "savedgames" subfolder. In the "Location" field, type "r:/save" then the space and press "OK" and then close the "Properties" window. You need to overwrite the current save game file. So we need to open notepad and create a new file. You need to rename the new file to something like "PES 2018 - autosave.sgm". This will prevent the game from automatically saving at a certain game point. When you close the game, it will ask you which of the game saved files you want to take. Select the file you just made, then hit "OK". At the end of the game, the game will ask you if you want to delete this file, hit "no"
